WORLDWIDE DISTRIBUTOR

**Schuurman BV introduces *BORN sports nutrition* in motorsport.**

Schuurman BV has agreed a promising alliance with *BORN Sportscafe BV* to introduce *BORN nutrition* products into motorsport. Schuurman BV will be able to satisfy the increasing demand for sports nutrition from motorsport competitors.

Athletes & cyclists, both pro's and amateurs have already discovered that besides demanding training programmes, balanced nutrition is crucial for good results.

Good nutrition is essential and is available with a healthy balanced diet. Unfortunately it's not always possible to consistently follow this approach.

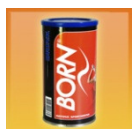

*BORN nutrition* provides the motorsportsmen and women with sportsdrinks and supplements. These contain all essential nutrients in perfect doses.

*Energy, Drink, SuperGel and Supple+* are merely some of the *BORN nutrition* products which are now at a racer's disposal: before, in between and after each race or training session.

Motorsport is extremely demanding on both body and mind of the rider. Improved stamina, staying power and concentration might just make the difference at the end of the race allowing you to grasp the opportunity and pass your opponent ..

*BORN nutrition* products allow you to perform at peak level, every time !
